

## Resource 1

Look at the resource below, where some farmers share some information about what they do on their farms.

I rear sheep and cows. Each year, in the spring, we have lambs and calves. I look after the animals and the farm all year round.

Bernard

I run a free-range egg farm. We have 8000 hens, which are all free to roam. We collect, pack and distribute the eggs throughout the UK.

Aisha

I work on an arable farm. We grow winter wheat, spring wheat and rapeseed.

Lorna

I own a pick your own farm. We grow many different fruit and vegetables, which our customers come and pick from the fields themselves. We have different fruits or vegetables to pick from April right through to October.

Rodric

My farm is a petting farm. People pay to visit and look around the farm and see all the different animals. We have a café, a farm shop and an ice cream parlour. We also have facilities for people to camp.

Matthew

Can you think of anything else a farmer might do?
