

# E-Safety Policy and Acceptable Use Agreements 

Prepared by:

Approved by:
Date of Meeting:
Date of Approval:

E-Safety in school is overseen by the Headteacher. This policy should be read in conjunction with the Child Protection Policy \& Safeguarding and the Information (Data Protection) Policy which can be found on our website:
https://www.naburnschool.com/about-us/school-policies

Our Christian vision is to build an environment of support and growth rooted in core values of hope, compassion, perseverance and community.

With God's help we work together, to try our best to take root in good soil and grow. We aim to achieve this through:

- Happy, motivated, independent learners
- A stimulating, creative, challenging learning environment
- Children with a high self-esteem, a positive self-image and a pride in themselves
- A safe, secure and calm environment in which everyone feels a sense of belonging
- A caring and inclusive ethos in which everyone is valued and respected

## Rationale

The internet and other digital technologies permeate all aspects of life in a modern technological society. It has become part of everyday life in education, business and social interaction. Internet use is part of the statutory National Curriculum and is a necessary tool for staff and pupils. It is the entitlement of every pupil to have access to the internet and digital technologies, in order to enrich his/her learning. Similarly, at home, many children have access to a range of technologies and it is part of the responsibility of school, alongside parents, to help to educate children in how to stay safe.

## Who does the policy apply to?

This policy applies to all members of the school community (including staff, pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of school.

## Overall aim

Our overall aim is that all children at Naburn Church of England Primary School will understand how to use the internet effectively and how to stay safe when accessing the internet, both at school and at home.

## Objectives

All children at Naburn Church of England Primary School should learn:

- that the internet contains an almost infinite amount of information which, when used appropriately, can be educational and entertaining.
- that most of the information on the internet is not verified and therefore has to be checked for accuracy.
- that there is some content on the internet which is inappropriate or even illegal and should be avoided.
- that the internet is a powerful tool for communication which allows us to be in instant contact with people from all over the world.
- that some people misuse the internet to communicate unkind or hateful messages (including cyber bullying) and that these people should be reported.
- that some people on the internet are not who they say they are.
- that a small number of people want to hurt children and could use the internet to make contact with them.
- how (or who) to report content or messages that are inappropriate, harmful or upsetting.
- that harmful and upsetting behaviour online may affect their mental health and that, if this should occur, they know who to speak to.

Through computing and subject lessons, pupils will develop an understanding of the uses, importance and limitations of finding information on the internet.

- Pupils will be taught how to effectively use the internet for research purposes.
- Pupils will be taught to evaluate the information they find on the internet.
- Pupils will be taught how to report inappropriate web content.
- Pupils will develop a positive attitude to using the internet and develop their ICT capability through both independent and collaborative working.
- Pupils have opportunities to engage in independent and collaborative learning using the internet and other digital technologies.

Through computing and subject lessons, pupils will develop an understanding of how to use the internet to communicate safely and appropriately.

- Pupils will be taught how to use email effectively, including checking for bogus messages.
- Older pupils will be taught how to share information using collaborative tools, including Google Workspace, and how to comment on other people's posts appropriately.
- Pupils will be taught how to respond to inappropriate comments (cyber bullying). Who to speak to or contact if they experience this.
- Pupils will be taught not to share passwords or personal information.
- Pupils will be taught how to respond to unsolicited attention.

## Methodology

In line with all City of York schools, there is a 'firewall' preventing harmful material and inappropriate sites from being accessed at school. City of York council are responsible for updating and maintaining this. Even with this in place, children are encouraged to talk to a member of staff if they see something on the internet which makes them feel uncomfortable. If unsuitable content were accessed, the staff have responsibility to report it to the Computing Leading teacher and the head teacher.

E-Safety is part of the National Curriculum for Computing. It is explicitly taught in all year groups as part of the Naburn Church of England Primary School Computing curriculum. To complement our teaching, we use resources from

- Jigsaw - covering elements of E-Safety through the PSHE sessions, which support the E-Safety taught through computing.
- Online software programs including Purple Mash, and Scratch -
- https://studio.code.org coding and e-safety
- www.childnet.com (Adventures of Kara, Winston and the SMART crew) (Smartie the Penguin) (Digiduck's Big Decision)
- https://www.thinkuknow.co.uk/ CEOP Education - e-safety
- https://www.bbc.com/ownit
- www.digizen.org (Useful information for parents and teachers)
- https://nationalonlinesafety.com/ (Useful information for parents and teachers)

Children, staff and visitors are all made aware of our 'Safe Use of the Internet Guidelines'. (See appendix at the end of this policy).
In class, staff model good internet practices and etiquette.

## In addition:

- The Headteacher will organise a parent/carer workshop covering e-safety and the computing curriculum.
- A useful tips/information update is regularly included in the school's weekly update newsletter.
- Useful tips/information are regularly updated on the school's website: https://www.naburnschool.com/parents/e-safety-tips-for-parents

## Mobile Phones and other handheld technology

Pupils are only permitted to have mobile phones or other personal handheld technology in school with the permission of the Headteacher. For example, Year 6 may bring a phone to school if they walk to and from school by themselves. If this is the case, the phones must be switched off and handed to the class teacher who stores them safely before handing back at the end of the day.

## Reporting

All incidents or disclosures will be treated with the utmost care and diligence. Children making disclosures will be given the opportunity to say what they need in a safe space, with no leading questions. However, they will also be told that a member of staff cannot keep their disclosure secret and will have to inform another member of staff. All disclosures should be recorded on CPOMS and brought the Phase Leader and Head Teacher's attention. The school's safeguarding policy will then be followed.

Apparent or actual misuse or illegal activity could include:

- child sexual abuse images
- 'sexting'
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- inappropriate messages or online bullying (mobile phones, social media, email etc)
- other criminal conduct, activity or materials e.g county lines evidence/ FGM etc

## Using Computers and the Internet

Follow these simple rules to keep safe and be fair to others.

- I will be careful with the computers, including making sure my hands are clean before use of equipment.

- I will use the computers only for school tasks and homework.
- I will not send messages to anyone, unless my teacher says it is OK.

- I will never give out my name, home address, telephone number, or any other information about myself or my family.
- I will tell my teacher if I find any words or pictures which make me feel unhappy or confused.

 <br> <br> the Internet}

At Naburn Church of England Primary School, we think that computers are a fantastic aid to learning. That is why we have up to date devices including laptops, Chromebooks and iPads.

The internet opens up wonderful possibilities for finding out about anything that interests us. It is up to all of us to make sure we use it wisely.

Follow these simple rules to keep safe and be fair to others.

- I will take good care of all the computer equipment and treat it with respect, including making sure my hands are clean before use of equipment.
- I will use the computers only for school tasks and homework.
- I will check with the teacher before I use my own USB stick / DVD / memory card.
- I will not send or receive messages or emails to or from anyone, unless I have the teacher's permission.
- Any messages I do send will always be polite and respectful. Before I share, post or reply to anything online, I will T.H.I.N.K.

$$
\mathrm{T}=\text { is it true? }
$$

$\mathrm{H}=$ is it helpful?
I = is it inspiring?
$\mathrm{N}=$ is it necessary?
$\mathrm{K}=$ is it kind?

- I will never give out my surname, home address, telephone number, or any other information about myself or my family.
- I will let a teacher know if I find any pictures or writing which make me feel uncomfortable. I know I will not be in trouble for this.
- I will keep my own passwords private and not ask anyone for their password.

# Safe Use of the Internet Guidelines 

## All Staff and Visitors

All adults working with ICT equipment in Naburn School must ensure that they have read and agree to abide by the following rules.

## For personal use:

$>$ Keep the school passwords private within school.
> Use encrypted memory sticks to transfer any information about pupils and never store this information on an unencrypted memory stick or device.
> Use the City of York or school email systems, and not personal accounts, for any messages about pupils or staff.
$>$ Ensure all messages sent via the internet are polite and professional.
$>$ Do not store any information about individual children on your computer at home.
> Ensure that home computers have virus checking software so there is no risk of transferring viruses from USB memory sticks.
$>$ Do not open other people's files without their permission.
> Do not release personal details including phone numbers, addresses or personal email addresses of any colleague or pupil.
> Do not reproduce copyright materials without first getting permission from the owner. Many people will make their work freely available for education on request. Acknowledge sources on all resources used.
D Do not attempt to visit sites which might be considered inappropriate in a primary school. All sites visited leave evidence on the computer.
> Use of school Internet access for business, profit, advertising, personal shopping or political purposes is strictly forbidden.

## When using the Internet with children

> Repeatedly remind children of the rules for safe use of the internet.
$>$ Watch for accidental access to inappropriate materials and report the offending site to the Computing Leading Teacher.

- Ensure children are appropriately monitored when using the internet.
$>$ Ensure you are aware of the children in your class whose photographs may not appear on the website or social media.
$>$ Ensure photographs of children are not named.

Don't give out personal information
Keep your personal information private and use it on safe sites only.

Keep your passwords safe Make sure you don't share your password with others and always log out of a device
 or app when you have finished.

## Tell a trusted adult

If you have a problem or see something you don't like, tell a parent, carer or trusted adult and they will help.

Report and contact help If you feel unsafe or unhappy press the REPORT button. If you can't or don't want to talk to a trusted adult, contact the NSPCC or Childline for help.
